Statement of relevant and material facts:

Front Range Internet, Inc. is a Service Provider in the USAC Schools and Library Program with SPIN#143006739. In the matter before the FCC, FRII has provided Internet services to the Applicant for funding year 2015 with a service start date of

07/01/2015. Applicant submitted FCC Form 471, application#1021496, funding Request Number:2783405. USAC Funding Commitment Report, dated 10/01/2015 indicates Funding Status: Funded.

During the process of applying for funding approval and submitting forms 470, 471, and 472 during the summer of 2015, the person responsible for maintaining FRII's E-Rate status and certifying for funding year 2014-2015, left the company. Because the employee had been diligent in the past for keeping all the E-Rate documentation and certifications up to date, it was unknown to FRII that funding year 2015 had not been certified. As a result, upon notification by USAC on 10/1/2015, that the submitted invoices were not approved because FRII was not certified for funding year 2015, FRII began the process of certifying funding year 2015 after the fact. FRII submitted its certification for funding year 2015 and then upon approval, resubmitted the form 472, but after the delays in certification approval, the resubmittal of data to USAC on 01/21/16, has resulted in submitting the invoices late based on the Acceptable End Date, 10/28/2015.

FRII requests that the 10/28/2015 deadline be waived with sufficient time so a Deadline Extension Request may be submitted to USAC for approval and form 472 to be resubmitted by Applicant and verified for payment.
